Development of Campus and its Maintenance

Preamble

“It Is Good People Who Make Good Places.” Sri Vijay Vidyalaya College of Arts and Science develop and maintain the Campus with artistic look. The institution has a clean and clear atmosphere for the benefits of the students to acquire the knowledge of fruit. Pollution free environment assures a perfect atmosphere for teaching and learning. As per the instruction of the higher education department, it is necessary to maintain a clean and green campus; the institution has made all the relevant facilities to follow it. The campus maintains the pollution free zone and the whole campus landscaping with plants and trees to ensure the green campus. The institution has framed a committee to implement the necessary steps at the correct time under the head of the Principal.

Scope

A well-maintained and clean campus provides a vision for the student's community to draw their attention towards sustainability, cleanliness, environment etc... . Smart Campus provides smart students; they take part in the development of the nation, thereby it fosters in the development of the institution towards a world class standard.

Objectives

- To maintain greenery and Pollution free zone.
- To achieve Sustainable Development Goals.
- To maintain Environment – friendly activities.
- Water Conservation and its management.
- Plastic free Campus and Plantation of Medicinal Plants.

Policy Statement

Sri Vijay Vidyalaya College aims to seek engagement with all stakeholders primarily the student community to maintain the renewable resources carefully. The committee members regularly schedule to maintain the Campus, water and electricity facilities. A strategic plan is adopted to conserve the floral and faunal species which supports the “net-zero CO₂ emissions.” Recycling, rainwater harvesting is regularly practised for effective water management planning.

The campus is a place where environmental- friendly education is practices to promote sustainability and eco-friendly. Solid waste like paper, plastics, metals, foods etc are segregated at each level and carried out routinely. Liquid wastes are segregated in two ways such as sewage waste and laboratory waste. They are treated through Sewage Treatment Plants (STPs) and Effluent Treatment Plants(ETPs) accordingly.

Responsibility

Sri Vijay Vidyalaya College of Arts and Science take cares of the maintenance of the infrastructure such as building, electricity and water resources. The committee also take cares of the all Departments, Classrooms, Digital Library, Computer Lab, Science Laboratory, Seminal Hall, Multipurpose Auditorium, Physical Training Room, Conference Hall, Yoga Centre, Nutrition Laboratory, Fashion Designing Laboratory, E-Learning Centre, Vehicles Parking Area etc... . An annual budget is allocated for the above by the committee members.

The committee supervisor and coordinator maintain the campus building, water bodies and gardens with the support of the staff- student’s community. Minor repairing and services are carried out immediately according the rules of the university.

Implementation

The committee members along with the coordinator execute the campus development and maintenance policy regularly.

Approval and Review

A review meeting is held every year or as and when required by the committee stakeholders’ for the development of campus and its maintenance under the supervision of Principal.
